

ImagePerfect™ Blackboard Film is a calendered PVC with a waterproof, permanent, acrylic adhesive. This product has been specially designed for use in transforming surfaces into blackboards and for recovering existing blackboards.

IP 5903

ImagePerfect™ Blackboard Film is an embossed, calendered PVC that is suitable for use with chalk. It has been specially designed for use in transforming surfaces into blackboards and for recovering existing blackboards. This product is resistant to most mineral oils, fats and fuels, aliphatic solvents, mild acids, salt and alkaline solutions. The adhesive has a low initial bond to enable repositionability but builds to form a permanent, waterproof adhesion to most substrates. It can be cleaned with any blackboard wiper.
